PROFILE

Motivated and eager Junior Full-Stack Django Developer with a strong foundation in web development acquired through rigorous training in the ALX Software Engineering Program. Transitioning from a background in mobile repair, I bring a keen eye for detail and problem-solving skills, ready to contribute to innovative projects in health-tech.

EXPERIENCE

J.P. Morgan Software Engineering Virtual Experience on Forage

August 2024

- Set up a local dev environment by downloading the necessary files, tools and dependencies.
- Fixed broken files in the repository to make web application output correctly.
- Used JPMorgan Chase's open source library called Perspective to generate a live graph that displays a data feed in a clear and visually appealing way for traders to monitor.

ALX Software Engineering Program

September 2023 - Exp October 2024

- Comprehensive training in full-stack development, Including bash, C, Python and MySQL.
- Developed several projects, including **Simple shell**, **Printf**, **Airbnb Clone**
- Specilizing in Backend development

PROJECTS

MicroJumpers

- A Hub for mobile repair technicians where they can review new tools, exchange knowledge and connect with other technicians from all over the globe
- Technologies: Django, Htmx, HTML, CSS, JavaScript, Bootstrap, Git, PostgreSQL
